

### **P10-08-003 Long-Range Planning**

Planning of new facilities shall be on a long-range basis, taking into account such factors as population projections, program modifications, adequacy of existing buildings, land use projections, planned future development, **capital improvements as allowed by Henrico County funding**, availability of utilities and roads, and availability of construction funds. Such facilities shall be of a type which, over the years, result in efficiency and economy of operation.

The **Planning Office** ~~Department of Assessment, Research, and Evaluation~~ shall provide for activities related to long-range planning including the preparation of data necessary to determine the location and facility needs of the school system.
