

## **P6-17-002 Scholarships**

Organizations and agencies who desire to offer scholarships through the schools shall obtain approval of the principal before announcing the scholarship.

At the principal's discretion, **and with parent/legal guardian and student approval**, scholarship recipients may be recognized at awards assemblies, graduation exercises, or other school ceremonies. A record shall be maintained in the school archives of the recipients of scholarships made available through the school.

All students should be fully informed of the scholarships sanctioned by the school, including the nature and purpose, the criteria for qualifying, and the method of selecting recipients.

Nothing in the above is interpreted to limit the opportunity of an individual student to work out scholarship arrangements with organizations and agencies outside the school. Refer to Policy **6-19-020**, "Tuition Payments for the Education of Disabled Students."

Last Revised:           August 1995
