

P6-19-022 Homebound Students

The Department of Exceptional Education may provide homebound instruction in accordance with the guidelines of the State Department of Education. Students under Homebound Instruction are counted as being in regular attendance in the school they would normally attend.

Refer to Regulation **6-19-022**, "Criteria for Qualifying for Homebound Instruction."

Refer to Policy **4-14-006**, "Homebound Teachers," and Policy **7-08-010**, "Homebound Instruction."

Last Revised: August 1995

VSBA IGBG - OFF-SITE INSTRUCTION AND VIRTUAL COURSES

Homebound Instruction

The School Board maintains a program of homebound instruction for students who are confined at home or in a health care facility for periods that would prevent normal school

attendance based upon certification of need by a licensed physician, physician assistant, nurse practitioner, or clinical psychologist.

Credit for the work is awarded when it is done under the supervision of a licensed teacher qualified in the relevant subject areas and employed by the School Board, and there is evidence that the instructional time requirements or alternative means of awarding credit adopted by the School Board have been met.

Virtual Courses

Students may enroll in and receive a standard and verified unit of credit for supervised virtual courses with prior approval of the principal. The superintendent is responsible for developing regulations governing this method of delivery of instruction that include the provisions of 8 VAC 20-131-110 and the administration of required Standards of Learning tests prescribed by 8 VAC 20-131-30. For courses offered for possible high school credit, standard units of credit are awarded for successful completion of such courses when the course is equivalent to that offered in the regular school program and the work is done under the supervision of a licensed teacher qualified in the relevant subject areas. A verified unit of credit may be earned when the student has successfully completed the requirements specified in 8 VAC 20-131-110.
