

**CITIZEN PARTICIPATION FORM RESPONSES**  
 Thursday, May 13, 2021

Timestamp	First Name:	Last Name:	Magisterial District:	Your written comments for the May 13 work session:
May. 3, 21 -- 10:10: AM	Nigel	Harris	Elko	Why is no wellness Wednesdays for next year idk why yall did that
May. 12, 21 -- 10:54: AM	Rick	Carper	Tuckahoe District - Marcie F. Shea	<p>This is for the entire school board, but I as a very concerned citizen want to plea with you folks to do not allow this critical race theory nonsense to entrench itself in our school system. We all know it's utter deception, destructive and dangerous to the core moral fabric of who we are I've done the research. I think we all know the truth that this is not supported by the overwhelming majority of we the people, it's an extremely small number of the elites that are trying to change society for the 'worse' and create racism where it's not. Common Core curriculum being forced upon us was enough, so just be aware that we will vote you out of office and find the core principled people that we need for the good of our children. I only thank God in heaven that my high school senior is leaving the system and we will do our best to guide him properly and correct what's been done. Evil is afoot and we will stand against it, and if we have to show up for your meetings and raise the roof to stop this political correctness we will and don't think your arrogance will be tolerated. I'm far beyond my limit with the lies and deceptions from weak elected officials and we will do what we have to to save our republic and the soul of our country! A fed up very concerned local citizen! Feel free to respond.</p>
